List that Seller's Books MA@ all payment accepted by the seller designer dot / Pixabay A baby elephant called a calf. A group of elephants are usually called herds. He is not in it for the long haul, however, in the hope of taking one last job before going to the sun with the beautiful Deborah Garonet. Asthmatic elephants are smaller and have a slightly shorter lifespan. They can live up to 70 years. Herds dominated by women and a social life Å elephanthaving family and friends around as part of the herdÅ important for the elephant. Elephant Breeding When the mother cow is ready to give the light, she Avill stay close to other reliable mothers in her flock to receive protection when she finally goes to labor. It's easier said than done. The male is called a bull, and the mother is called a cow. The medium calf is about 3 p@ s tall and weighs about 120 pounds. When water is scarce, elephants can set foot on the ground to find subterranean . If your booking request is too heavy or too large, we may contact you to inform you that an extra shipment is not required. As the name suggests, they live mostly in about 37 African countries. Once mothers mature and become mothers, they may have up to 12 calves in their lives, usually waiting one year ^ birth to become pregnant again. A few days ^ birth, the calf is strong enough to walk and keep its flock, although the mothers in the flock can slow down their rhythm to help any new babies accompany them.
